

Eternal Justice, Inc. In Action

"Money is last. The mission is No. 1."

Michigan

Across the nation one of the complaints often heard by Carolyn Jacobi of Eternal Justice is the consumer being denied the right to choose the installer of their memorial or memorial foundation. In some states cemeteries still refuse to allow consumers this basic right. Such was the case in Michigan. The following pictures show the power of Eternal Justice. These are actual photos of a memorial being installed by a memorialist after Carolyn Jacobi arrived on scene. This injustice must stop. Eternal Justice is getting the job done.

Who can install?

Consumers must be allowed their precious right to choose!

In Michigan they can now thanks to Eternal Justice!

Thanks to Eternal Justice and Carolyn Jacobi ...

**families can decide for themselves!
This right to make choices is too precious to lose!
Injustice anywhere is a threat to justice everywhere!**
